1. The following is an Examiner's Statement of Reasons for Allowance:

The prior art of record does not teach or fairly suggest the recited centrifuge having an adjustable valve plug arranged at the shaft and arranged to be held in an open position by the centrifuge rotor, the valve plug releasing the orifice opening in the open position, and the valve plug arranged to be transferred into a closing position and held in the closing position by a force created by at least one of a pressure of the lubricating oil and by a preloading component if the centrifuge rotor is missing, the valve plug plugging the orifice opening in the closing position. The valves of the prior art centrifuges operate in a manner opposite to that claimed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
